Dear Hiring Manager,

I'm applying for the Front-End Developer position at (placeholder company). I'm a Front-End Development student at Noroff Higher Vocational College, where I'm learning to build responsive and accessible websites using HTML, CSS, JavaScript, and Figma.

Through my studies, I've worked on projects that focus on simple, user-friendly design and clean code. I enjoy solving problems and creating websites that work well on all devices.

My background in retail and hospitality has given me solid communication and teamwork skills, which I find helpful when collaborating on projects or meeting deadlines.

Thank you for your time and consideration. I'd appreciate the opportunity to talk more about how I could contribute to your team.

Kind regards,

Anniken Thorbjørnsen Lysø
